Why have a Turnkey Solution?

SGA Technologies has been supplying high quality, high reliability hermetic components and packages since 1969. Customers globally are using SGA devices in applications where performance, quality and reliability are critical. Our complete manufacturing approach, gives customers a security of design and ease of manufacture and a more cost effective solution.

Why work with SGA?

- ✓ UK supply chain
- ✓ 50+ years experience in design and manufacturing
- ✓ Multiple materials and options available
- ✓ Strong technical team
- ✓ In-house technical plating division
- ✓ Testing capabilities
- ✓ IS09001:2015 certified & IS014001:2015 certified

Advantages of Turnkey manufacturing

One supplier to contact	Eliminate the hassle of dealing with complicated supply chains. SGA can source all components required or work with your existing partners if preferred.
One invoice to pay	Ease of accounting by having only one invoice for the finished product being sent.
Design and manufacturing in sync	Any new design or features the customer wants to add can be easily discussed and created. Communication between the designer engineer and production made easy.
Overall costs are cut	Save money and time by having your design, manufacture and testing done by one company.
Greater control of quality	By having SGA source your parts, we can ensure the highest quality, better supply and on time delivery to you.
Greater control of supply chain	As we are ISO and JOSCAR certified, we have very tight control of our approved vendor listing and only work with the best.
