

## SGA Values

At SGA Technologies Limited we are constantly striving to improve our business, we recognise that our core values lay at the very heart of this. Our values affect the quality of our products, guide the way that we work with our customers, determine how we treat each other and our impact on the wider environment

### Can do Attitude

We always show 100% commitment and always have a positive 'can do' attitude

### Responsibility and Accountability

We are personally accountable for our actions and results, we keep the promises and commitments we make to others. we all take responsibility for the growth and prosperity of SGA

### Respect

We believe in showing respect. We are all as important as each other and we strive to treat everyone as we would like to be treated ourselves. Respect and integrity are at the core of our company

### Communication

We believe in listening to other people to understand their point of view and in communicating in a fair, professional, knowledgeable and effective manner

### Excellence and Quality

We aim high and are committed to providing excellent quality of work and solutions which drive the company forward. we acknowledge the high performance that our customers require

### Team work

We perform best as a team; this is when we show our commitment to, and trust in, the company and each other

### Pride

We are proud of our products and services and have a true passion for them. we take pride in our work and being part of the SGA family

### Proactive

We strive to be proactive in everything we do. We are open to suggestions. We embrace change

### The environment

We care about the environment and believe in minimising our impact on it
